### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Douglas Holtz on 30 September 2004.

The application has been amended as follows: in claim 1, line 16 "vane indirectly, discharging" has been changed to --vane indirectly, wherein the diameter of organic solvent mist emitted indirectly from the mist-straightening vane is not more than 20  $\mu$ m, discharging--; claim 5 has been cancelled.

2. The following is an examiner's statement of reasons for allowance: the art of record, when considered alone or in combination, does not anticipate nor render obvious a method for drying washed objects as presently claimed. The closest art of record is US Patent 6,192,600 to Bergman. Bergman teaches a similar method for drying objects comprising a drying tank with mist-straightening vanes for directing a fluid spray into the tank via nozzles. However, the vanes of Bergman do not direct the mist at a diameter that is not more than 20  $\mu$ m, as presently claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

**Conclusion**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kathryn S. O'Malley whose telephone number is (703)308-2844. The examiner can normally be reached on M-F (8:30-5:00).
